NALANDA GLOBAL

Join the Nalanda Community's intelligent cloud services **as a contractor free of charge**, and optimize the relationship with your suppliers throughout the phases of your supply and subcontracting chain

What is Nalanda

Nalanda is a **Spanish multinational that brings together large companies and their suppliers** around a digital platform where they exchange documentation, purchases, invoices and business information.

It is specialized in coordinating business activities between contractors and its suppliers and subcontractors. Its different services reduce costs, times and risks and help you achieve a more transparent business relationship through an intelligent cloud that connects everyone easily

Benefits for buyers

In short, breathe easy.

Our platform helps to successfully and safely complete the supply and subcontracting processes of our client contractors.

At the same time, we take care of suppliers, providing them with new opportunities, reinforcing their trust with their clients and maximizing their visibility with thousands of potential clients.

Reduce risks

With an adequate selection and monitoring of your suppliers that allows you to work with the most reliable.

Improve governance

Facilitating your suppliers to comply with their own regulations and those of others.

Reduce times

Connecting through the cloud with your providers and standardizing the relationship with them.

Find opportunities

The information provided by the providers allows you to choose among the best

Reduce costs and paper

Everything online, without mountains of papers and emails almost impossible to classify, update and follow.

Motivate your teams

Free your teams of paperwork and bureaucracies to focus on what they can do best.
