

Improving your reputation and compliance

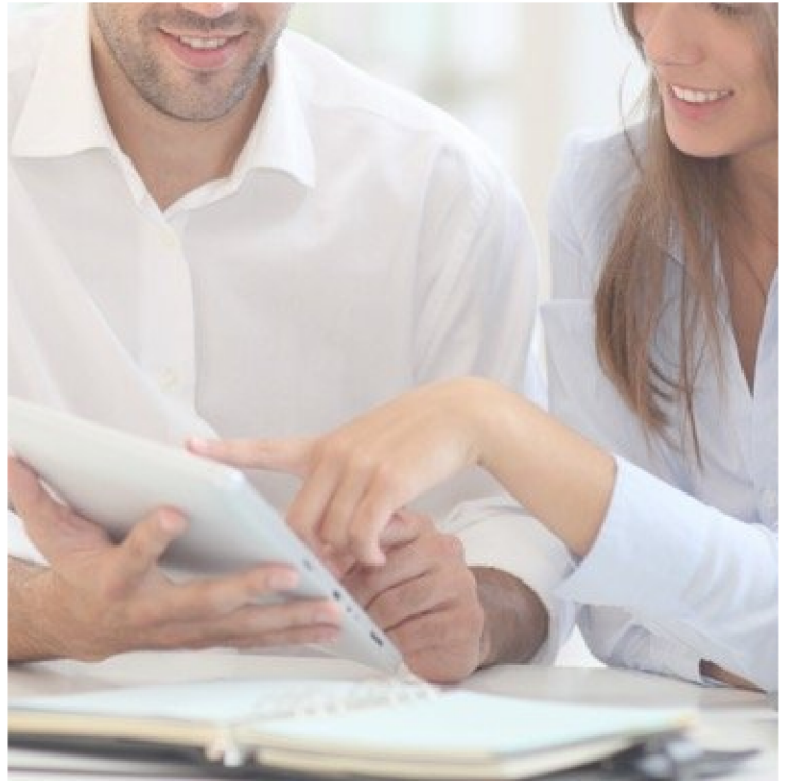

SUPPLIERS QUALIFICATION

Make sure before awarding that the company you will work with is reliable, solvent and respects the law, thus mitigating the responsibility of the legal entity of your company in the face of individual malpractices and improving your reputation and compliance.

What is it

It is an intelligent cloud for the Homologation and Qualification of Suppliers specialized in Compliance. It guarantees internal and external regulatory compliance of companies concerned with making the world a better place.

We claim, safeguard, verify and validate all documentation and compliance questionnaires that you require from all your suppliers when they collaborate on your projects.

How does it work

By awarding only suppliers previously approved in our **exclusive supplier directory**, we get your purchasing and production departments to ally, conditioning your awards and subsequent control points, to the correct compliance with the homologation and compliance regulations of your company by said suppliers, and protecting everyone from bad practices.

Thus, both buyers and suppliers are motivated to improve to compete in a more ethical and fair business environment.

Process

01

Your providers upload the documentation to the cloud only once for any of your projects.

02

Our experts validate the documentation for you.

03

The contracting of suppliers is subject to compliance with the documentation and questionnaires.

04

Your suppliers are available to the rest of your organization for future purchases.
